

## Contact the Council

**Contact Your Council Representative** In each of the 7 states and 266 U.S. cities that have already passed clean indoor air laws, the opposition was always vocal, while the supporters were usually quiet and reserved. As a result, many elected officials are timid about passing clean indoor air laws. In Cleveland, 63% of registered voters favor a 100% clean indoor air law. We already know it's an important health issue. Now it's time to tell our elected officials. They need to hear from you! Please use the form below to write to your councilperson, so he or she will know you support their vote in favor of clean indoor air. Please be sure to provide your phone number. We must confirm this letter via phone with you before it's delivered. This information will only be used to contact you for confirmation and to send your letter to your Councilperson.
